Objective

Detail-oriented computer science graduate and frontend developer with three months of internship experience in building responsive, user-centric web applications. Proficient in HTML, CSS, JavaScript, and Bootstrap, with hands-on experience delivering client-ready websites. Seeking an entry-level role to contribute to professional development teams and grow as a frontend engineer.

Technical Skills

- **Web Technologies:** HTML5, CSS3, JavaScript (ES6), Bootstrap 5, Responsive Design
- **Programming & Frameworks:** Python, Flask, NumPy, Pandas
- **Databases:** MySQL (Intermediate), MongoDB
- **Tools & Practices**: Git/GitHub, Manual Testing, Template Customization

Projects

1. Crop recommendation system (Oct 2024)

- Built a machine learning-based system recommending crops using soil nutrient data
- Used MySQL for data storage and applied supervised learning algorithms for predictions
- Conducted data preprocessing, model training, and evaluation to improve accuracy

2. Online code editor (Mar 2025)

- Developed a browser-based code editor with real-time execution using Python (Flask) and MongoDB
- Designed a clean UI for seamless code writing and testing
- Validated features through manual testing and improved performance

Experience

Internship

Web Developer Intern | R7 Soft Services *November 2025 – Present | Mumbai*

- **End-to-End Development:** Engineered a comprehensive multi-page website for a Charitable Trust, focusing on intuitive navigation and secure donor engagement interfaces.
- **UI/UX Optimization:** Customized and deployed a Bootstrap-based car rental platform, improving mobile responsiveness.
- **Conversion-Focused Design:** Developed a high-performance single-page landing site for an engineering solutions firm, utilizing modern CSS frameworks to ensure rapid load times.

Education

B. Sc. Computer Science, from Shree L. R. Tiwari Degree Collage, Mira Road East, Thane, Maharashtra 401107 Maharashtra April 2025

GPA: 7.68

Certifications

- SQL for Everyone – Udemy (August 2025)
- SQL (Basic) – HackerRank (July 2025)
- Introduction to Software Testing – Simplilearn (April 2025)
- 30-Hour Live Training Program on Python – SLRTDC (February 2023)
